

Dear Youth Creates Clients:

Welcome to the Youth Creates summer online classes! We will be using Zoom, an online conferencing service, to bring you our outstanding class experiences. This will be a wonderful opportunity for your students to improve their academic performances with the most amazing young teachers and leaders.

Before we get started, we need to remind parents & guardians that students will be on a live video conference that may be recorded. Please read through the following guidelines so we can maintain a safe experience for all participants.

1. We will send you a link to join the Zoom class meeting. You will NOT need to set up a Zoom account or input any information except for the student's first name and last name initial; Please go to Zoom.us for more details about the system.
2. The meeting will be live and interactive. Please make sure your student is in a quiet place where a parent can monitor the session. Please remember that everything within the camera viewing area will be visible to the teacher and other students. Please be aware that there may be online media that contain references, ads, or links to materials from third parties. Youth Creates LLC is not associated with those third parties.
3. Sounds and voices can be captured by your device's microphone and heard by others in the Zoom session. Teachers will mute participants for portions of the session but may unmute participants during discussion or to hear questions.
4. During live sessions, participants may hear and see anything within the audio and camera within the audio and camera viewing areas. Please make all household members aware of this. Hanging "Live Video Session" signs around the area or turning the monitor/device toward a wall can help with controlling the area.
5. These sessions will be recorded for viewing by students who were unable to attend that session or for the attending students to review the materials again if needed.
6. Please review our participant Code of Conduct (<https://www.youthcreates.com/disclaimers>) policy and discuss responsible & appropriate behavioral expectations with your student that may be applicable online. We will also monitor the students and set virtual classroom expectations so that all participants will have a safe and fun learning experience together
